Supplemental cash flow information (Note 14)

Notes to the condensed interim consolidated financial statements Three months ended March 31, 2017 and March 31, 2016 (Tabular amounts in thousands of US dollars unless otherwise noted) (unaudited)

### 1. Continuation of operations

Scorpio Gold Corporation ("Scorpio Gold" or the "Company") and its subsidiaries conduct mineral exploitation, exploration and development activities in the United States.

The Company is incorporated under the Business Corporations Act (British Columbia) and is listed on the TSX Venture Exchange. The address of the Company's registered office is 206-595 Howe Street, Vancouver, British Columbia, Canada, V6C 2T5 and its administrative office is located at 1462, de la Quebecoise, Val-d'Or, Quebec, Canada, J9P 5H4.

### 2. Statement of compliance, basis of presentation and going concern

The Company's condensed interim consolidated financial statements have been prepared on the going concern basis which assumes that the Company will continue to be able to meet its liabilities as they fall due for the foreseeable future.

Based on the Company's current mine plan, the Company anticipates mining at Mineral Ridge through to August 2017, after which there will be residual but diminishing gold recoveries from the leach pads. As a result, the Company's revenues from operations will be adversely affected, and the Company will be increasingly required to fund operations from its available cash. In addition, \$6.0 million principal of the Company's long-term debt matures in August 2018 (Note 12). In light of the current mine plan, the Company does not expect that it will be able to generate sufficient cash flows to settle its long-term debt without it being refinanced. The Company is currently evaluating various business alternatives, which involve refinancing its long-term debt and/or raising financing through an equity financing or through other types of financing. Also, the Company could continue mining beyond its current mine plan at Mineral Ridge after receiving approval of its amendment to the revised Plan of Operations and/or following positive results from its exploration efforts provided that, in the Company's opinion, it is economically viable to do so. The successful completion of a refinancing of the Company's debt or raising financing through an equity financing or through other types of financing, obtaining operating permits and economic viability of any future mining and the ability to identify future profitable business operations beyond the current mine plan is not entirely within the control of the Company. These factors create significant doubt and material uncertainty over the Company's ability to continue as a going concern in the foreseeable future.

The Company's condensed interim consolidated financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments could be material.

These condensed interim consolidated financial statements of the Company, including comparatives, have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") using the accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements do not include all disclosures required by IFRS for annual audited consolidated financial statements and accordingly should be read in conjunction with the Company's annual audited consolidated financial statements for the year ended December 31, 2016 prepared in accordance with IFRS as issued by the IASB.

These condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on May 30, 2017.

Notes to the condensed interim consolidated financial statements Three months ended March 31, 2017 and March 31, 2016 (Tabular amounts in thousands of US dollars unless otherwise noted) (unaudited)

### 3. Significant accounting policies and estimates

The preparation of financial data is based on accounting principles and estimates consistent with those used in the preparation of the audited consolidated financial statements as at December 31, 2016, except for the following policy being applied in the current quarter which was not applicable in the 2016 consolidated financial statements:

a) Amendments to Statement of Cash Flows ("IAS 7")

On January 1, 2017, the Company adopted the amendments to *Statement of Cash Flows* ("IAS 7"). The amendments improve information provided to users of financial statements about the Company's financing activities. The adoption of these amendments did not have any significant impact on the presentation of the Company's financial statements.

### b) Mineral Ridge mine estimates

The fact the carrying amount of the net assets of the Company was higher than the Company's market capitalization as of March 31, 2017 is an indicator of impairment. In determining the recoverable amount of the Mineral Ridge cash-generating unit ("CGU"), the Company determined the recoverable value using fair value less costs of disposal. Impairment testing is performed using life of mine discounted cash flow projections derived from expected future production, which incorporate reasonable estimates of life of mine, future metal prices, operating costs, capital expenditures and residual values of the assets. The determination of the recoverable value used Level 3 valuation inputs.

Based on its assessment, the Company calculated that a non-cash impairment charge for Mineral Ridge of \$2.7 million would be required, using a discount rate of 9% along with an average gold price assumption of \$1,250 for the rest of 2017. However, since the depreciable amount of the assets, being defined as the net of the carrying amounts and the residual value, amounted to \$1.5 million, the Company recorded a \$1.5 million non-cash impairment charge for Mineral Ridge as at March 31, 2017.

The Company has performed a sensitivity analysis to identify the impact of changes in long-term gold price which is the key assumption that impacts the impairment calculation mentioned above. Using the foregoing impairment testing model, a 10% increase in the gold price assumption and holding all other assumptions constant would reduce the amount of the impairment by \$0.2 million. A 10% decrease in the gold price assumption and holding all other assumptions constant has no impact on the impairment as the residual value of the assets remains constant.

#### c) Non-controlling interest - correction

As part of the operating agreement of the Company's 70% owned subsidiary Mineral Ridge Gold, LLC ("MRG"), Scorpio earns management fees from MRG which are eliminated upon consolidation. The non-controlling interest's share of MRG's net income (loss) had been previously calculated by excluding the management fee expense incurred by MRG; during the year ended December 31, 2016, the Company determined that the management fees should have been considered. This correction had no impact on the Company's total net earnings for the period ended March 31, 2016. However, this correction decreased the net earnings attributable to non-controlling interest in the period ended March 31, 2016 by \$0.1 million and increased the net earnings attributable to the shareholders of the Company by the same amount. This correction increased the basic and diluted net earnings per share by \$0.01 for the period ended March 31, 2016.

### 4. Financial instruments

### a) Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

### Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company's current policy to manage liquidity risk is to keep cash in bank accounts.

The following table outlines the expected maturity of the Company's significant financial liabilities into relevant maturity grouping based on the remaining period from the date of the statement of financial position to the contractual maturity date:

|   |       | Less than 1 |           |           | More than |
|---|-------|-------------|-----------|-----------|-----------|
|   | Total | year        | 1-3 years | 4-5 years | 5 years   |
|   | \$    | \$          | \$        | \$        | \$        |
| Trade and other payables Principal and interest on long-  | 3,883 | 3,883       | -         | -         | -         |
| term debt and financing lease Provision for environmental | 7,063 | 721         | 6,342     | -         | -         |
| rehabilitation  | 4,990 | 163         | 2,889     | 1,441     | 497       |

#### b) Fair Value

The fair value of cash, reclamation bonds, trade and other payables approximate their carrying amount due to their short-term nature. Fair value of long-term debt is not significantly different from its carrying amount since interest rates in the market have not materially changed since the Company entered into the debt facility in August 2015.

<sup>a)</sup> On August 14, 2015, the Company executed definitive agreements with Waterton Precious Metals Fund II Cayman, LP ("Waterton Fund"), an affiliate of Elevon, LLC, for a loan in the principal amount of \$6 million (the "Loan"). The Company paid Waterton Fund a \$0.12 million structuring fee and incurred \$0.16 million of other related issue costs. The Loan matures and is payable 36 months after the date of advancement, but may be voluntarily prepaid by the Company at any time, provided that upon such prepayment the Company shall pay the lesser of 24 months of interest on the principal amount, or such interest as would be payable between the date of such prepayment and the maturity date of the Loan. Also, the Loan is subject to mandatory prepayment in certain circumstances, including upon a change of control of the Company, as defined in the definitive agreement.

There are certain restrictions placed on the Company pursuant to the Loan, including, among others, a limitation on additional debt that can be incurred by the Company and the requirement that the Company's trade payables not exceed \$8.0 million. The Company has complied with all restrictions pursuant to the Loan as at March 31, 2017.

b) Waterton Precious Metals Fund II Cayman, LP ("Waterton Fund")

Waterton Fund, the Company's lender, controls Elevon, LLC ("Elevon") which owns a 30% non-controlling interest in Mineral Ridge Gold, LLC. Management considers that Waterton Fund is a related party.

Related party transactions entered into with Waterton Fund during the periods ended March 31, 2017 and March 31, 2016 are as follows:

#### 17. Provision and contingencies

During 2016, the Second Judicial District Court of Washoe County, Nevada issued a judgment awarding National EWP, Inc. ("National") US\$2.3 million in its lawsuit against Mineral Ridge Gold LLC ("MRG") for additional costs related to the construction of a water well. The Company and its legal advisors disagreed with both the Court's legal conclusions and its factual findings and began the appeals process. To prevent any collection activities during the pendency of the appeal, MRG was required to provide cash security to the Court in the amount of the judgment of US\$2.3 million.

During the early stages of the appeal, Nevada court rules required both parties to attend a settlement conference with a court-appointed mediator to seek agreeable settlement terms. After negotiation with National in February 2017, the Company determined that it was in its best interest to settle the case for an amount of US\$1 million and end the costly litigation. In February 2017, the cash security provided by MRG to the Court was released. From the released funds, the settlement amount has been paid to National and the \$1.3 million remaining funds have been returned to MRG. Also during Q1 of 2017, the Company settled another litigation case for \$15,000.

Reconciliation of provision for litigation is as follows:

|                            | March    | December |
|----------------------------|----------|----------|
|                            | 31, 2017 | 31, 2016 |
|                            | \$       | \$       |
| Balance, opening of period | 1,015    | -        |
| Additions                  | -        | 1,015    |
| Settlement                 | (1,015)  | -        |
| Balance, end of period     | -        | 1,015    |

Furthermore, due to the complexity and nature of the Company's operations, various legal and tax matters arise in the ordinary course of business. The Company accrues for such items when a liability is both probable and the amount can be reasonably estimated. In the opinion of management, these matters will not have a material effect on the consolidated financial statements of the Company.
